I want to encourage you to daily connect with God. You might ask, “how can I do this?” Included in this guide is a model for having a devotional time with God. I am confident that God will shape your life through His truths and His presence as you spend time in the Bible reading and reflecting.

Each day you will be able to ask and answer this life changing question, “How will I be different today because of what I have just read?”

As you read the daily-recommended portion of scripture please do so with a journal in hand. Let it become your story of interaction, insight, and direction from the one who created you for His plans and purposes.

Journaling is an excellent way to record and process what God has spoken to you. It's also a useful tool to use at a later time, to reflect on and review some of the 'nuggets' that you have received. Without writing them down, you may forget those blessings and some very important lessons! While journaling is a very personal time with the Lord, you may want to share some of your daily journaling with your journey group or other friends. Through discussion, you may be able to look deeper into what God is speaking to you, gain new insight and even encourage others.
